**Subject: Application for Data Scientist**

Dear Hiring Manager,

I am writing to express my interest in the Data Scientist position at Company. With a Bachelor's degree in Computer Science specializing in AI/ML and Autonomous Agents from Arizona State University, and hands-on experience in AI research, I am excited about the opportunity to contribute to your team.

During my time as an AI Research Intern at Tech Mahindra Makers Lab, I focused on developing autonomous agents and enterprise AI solutions, honing my skills in Python, Machine Learning, NLP, and more. Additionally, my role as an Undergraduate Research Aide at ASU AI Lab allowed me to work on ML pipelines for NLP and computer vision tasks, further strengthening my expertise in Deep Learning, PyTorch, and TensorFlow.

I believe that my background in AI/ML, combined with my proficiency in technologies like FastAPI, SQL, and MLOps, align well with the requirements of the Data Scientist role at Company. I am eager to leverage my skills and knowledge to drive impactful data-driven solutions and contribute to the innovative work being done at your organization.

Thank you for considering my application. I am looking forward to the opportunity to discuss how my experiences and skill set make me a strong fit for the Data Scientist position. I am excited about the prospect of contributing to the success of your team at Company.

Sincerely,

**Aradhya Dixit**
